

# Bioplastics

# PRICE LIST

## Benefit of Bioplastics:

Food that works as flexible packaging

Has the same function as plastic packaging, plus it dissolves in warm water & biodegradable

Shelf life: 2 years, without preservatives

Contains high fiber, vitamins and minerals

Can be customized to give specific taste, color and brand logo

Halal certified, safe to eat and produced in compliance with HACCP standards

100% biodegradable and will be natural fertilizer for plants

Printable and Heat sealable

## Bioplastics – Edible Grade\*

**Food wrap**  
(such as for burger, sandwiches, bread, etc.)  
Size: 21x21cm

**IDR 2,400**/sheet

**Coffee sachet**  
Size: 6x6cm

**IDR 390**/sheet

**Dry seasoning sachet**  
Size: 5 x 4.5cm

**IDR 240**/sheet

### \*Terms:

- Packaging can only be used for dry products
- Excludes brand logo printing. We use food safety tested edible ink. Cost per printing per sheet is around IDR400/sheet

## Bioplastics – Biodegradable Grade\*

**Soap packaging Size 1**  
Size: 7 x 7 cm

**IDR 530**/sheet

**Soap packaging Size 2**  
Size: 12 x 7.5 cm

**IDR 980**/sheet

### \*Terms:

- Excludes brand logo printing. Cost per printing per sheet is around IDR300-400/sheet

**For other product applications**, just let us know your expected sizes (length X width). Our price per cm<sup>2</sup> is **IDR 5.5**  
For example if you want sachet with sizes of 14x9cm. So the packaging price = 14cm x 9cm x IDR 5.5 = IDR 690
