

## Benefit of Seaweed-based Packaging:

Works as flexible packaging

Has the same function as plastic packaging, plus it dissolves in warm water & biodegradable

Shelf life: 2 years, without preservatives

Contains high fiber, vitamins and minerals

Can be customized to give specific taste, color and brand logo

Halal certified, safe to eat and produced in compliance with HACCP standards

100% biodegradable and will be natural fertilizer for plants

Printable and Heat sealable

We're selling seaweed-based packaging in a sheet format with size 21 cm x 26 cm for **USD 0.46**. The price per cm<sup>2</sup> is **USD 0.001**, to custom your packaging just let us know your preferred size.

## Seaweed-based Packaging Customization

Our seaweed based packaging works for dry food and non food product

### FOOD

Dry seasoning, burger, coffee, energy bar, ice cream, etc.

### NON FOOD

Toothpick, sanitary pad, soap, etc.

Our seaweed-based packaging is heatsealable with regular plastic heatseal. To save your time, we can help you to heatseal as below:

side sealed

centre sealed

- We can custom your sachet based on your preferred size so you can repackage with your product easily.
